ACADEMIC DETAILS

Guru Tegh Bahadur Institute of Technology | B.Tech (ECE) 09/2020 – 06/2024
CGPA: 9.0/10 · Subjects: AI & Machine Learning, Embedded Systems, Control Systems, Robotics

EXPERIENCE

PlanetSpark | **Senior Data Analyst (Promoted from Data Analyst, Oct '25)** 09/2024 – Present

Google Sheets/Excel, SQL, Python, JIRA, Metabase, Power BI, Power Automate

- **Automated** end-to-end data sync across SharePoint, production DB, and Teams via **Power Automate**, eliminating **90% of manual data entry** and cutting the marketing team's ad-optimisation cycle by 2 days/week.
- **Consolidated 250+ metrics** across Google & Facebook Ads; identified underperforming segments, cut **100+ inefficient campaigns**, generating **\$1M in annualised ad spend savings**.
- **Translated stakeholder requirements** into structured User Stories and JIRA epics, driving **100% on-time sprint delivery** across 8 bi-weekly Scrum cycles.
- **Built K-12 learning-trend dashboards** across grades, subjects, and regions to surface counselor-targeting insights and optimise student onboarding flows.

InFeedo | **Business Analyst** 09/2023 – 08/2024

Project Management, Excel, Salesforce, SQL, Power BI, Rattle, JIRA, Leadsquared, Google Looker Studio

- **Re-engineered CRM lead-qualification logic** in Salesforce, boosting lead conversion by **35%** and reducing CAC by **20%**; deployed an Early Warning System cutting lead leakage by **10%**.
- **Managed 5 cross-functional projects** end-to-end — scoping, sprints, QA, go-live — leading 8-person squads to **100% on-time delivery** through Agile sprints.
- **Developed 20+ dynamic reports and dashboards** across 50+ datasets, increasing data transparency by **25%** and enabling faster strategic decisions for senior leadership.

InFeedo | **Business Analyst Intern** 06/2023 – 08/2023

Excel, Salesforce, SQL, Power BI, Rattle, Salesforce Analytics

- **Cleaned and standardised 5 core data sources**, reducing downstream reporting errors by **30%** and improving data-integration pipeline efficiency by **20%**.
- **Developed performance dashboards** improving operational visibility by **15%**; conducted QA audits on 10+ weekly reports before senior-leadership review.

PROJECTS

Google Play Store Apps Analysis

- Built a **Python ETL pipeline** (Pandas) that cleaned 10,000+ app records, reducing data errors by **25%**; used Seaborn/Matplotlib to surface key rating-drivers across 30+ app categories.

Adventure Works Retail Dashboard

- Designed an **8-view Power BI dashboard** on a star-schema data model (revenue, returns, segments), cutting manual Excel reporting from 2 hours to under 5 minutes per query.

Crypto Currency Analysis

- Engineered **multi-exchange data pipelines** (Python + SQL) from 5 sources; deployed a real-time Power BI dashboard tracking price, volume, and volatility for 10 major crypto assets.

TECHNICAL SKILLS

- **Languages:** Python (Pandas, Seaborn, Matplotlib), SQL
- **Tools:** Power BI, Excel/Google Sheets, Power Automate, Power Apps, JIRA, Metabase, Confluence, Salesforce Analytics, Google Looker Studio, Power Query, MySQL, Google Analytics
- **Skills:** Data Analysis & Visualisation, Funnel Analysis, Cohort Analysis, A/B Testing, Agile/Scrum, Project Management, CRM Optimisation, Stakeholder Management, BRD/PRD, Workflow Automation, Data Modelling, API Integration

CERTIFICATIONS & RESEARCH

- **Google Data Analytics Professional Certificate** – Coursera · **Microsoft Power BI Desktop for Business** – Udemy · **MySQL for Data Analysis** – HackerRank
- Research abstract published at **SocPros 2023, IIT Roorkee** — socpros2023.iitr.ac.in
